

FOR IMMEDIATE RELEASE

Radiall introduces the new platinum series of terminations and attenuators for Test & Measurement applications

March 2015 - Radiall, a global leader in design, development and manufacturing of innovative interconnect solutions, is proud to announce the new platinum series of terminations and attenuators for Test & Measurement applications. The platinum series of terminations and attenuators is part of Radiall's global Test & Measurement offer and provides outstanding VSWR and precision performance.

This new range can be easily integrated into communication matrices, test benches and laboratories where high RF performance and reliability are essential. The platinum series range includes terminations and attenuators up to 40 GHz and is offered with a variety of commonly used connectors in the instrumentation field, including:

- 2.92 mm up to 40GHz
- 3.5 mm up to 26.5GHz
- SMA up to 18GHz
- Type N up to 18GHz
- TNC up to 12.4GHz
- BNC up to 4GHz

For further information on Radiall's new platinum series terminations and attenuators please contact a Radiall sales representative, Distributor or visit www.radiall.com

###

About Radiall

Radiall is a global manufacturer of leading-edge interconnect solutions. The company offers an extensive range of RF coaxial connectors and cable assemblies, coaxial switches, fiber optic and microwave components, multipin connectors and more. Radiall has sales offices and subsidiaries throughout the world, R&D in the U.S., Europe and China, along with manufacturing facilities strategically located in the U.S., Mexico, India, and China.
