

PRODUCT PORTFOLIO

We listen to our customers to understand their ever-changing business and technical requirements and continuously develop new solutions to simplify the lives of those who innovate.

Active Optics

Our high-performance, optical interconnection brand, D-Lightsys®, provides optical transceiver and electronic solutions suitable for harsh environments.

Outdoor Connectors

Designed for outdoor conditions, our range includes high-power RF coaxial connectors, linking antennas and radio units, as well as innovative multi-signal I/O solutions for optical, Ethernet, power or coaxial links between radio and network.

RF Cable Assemblies

Low-loss and high-frequency characterize our extensive range of cable assemblies, including flexible, semi-rigid and hand-formable solutions with a broad combination of cables and connectors.

Multipin Aerospace Connectors

For more than 40 years, commercial airframes have trusted our range of Rack & Panel connectors and modular solutions. Our miniature connector series combines high performance and reduced weight to meet the demands of the civil and military aerospace industries.

Space Qualified Components

Known for high quality, reliability and performance, our product offering includes a wide range of coaxial connectors, cable assemblies, microwave components and switches with a frequency range up to K_a band.

Optical Cable Assemblies

Our extensive product range and worldwide presence supports customers with standard configurations as well as optimized solutions based on customer requirements.

Antennas

With a military and industrial focus, we have solutions for radio tactical communications, vehicles, positioning, LMR/PMR and telemetry applications.

Optical Connectors

Designed for demanding applications where reliability and high performance are required, our cost-effective optical connectors serve the telecom, industrial, aerospace and defense markets.

RF Coaxial Connectors

We offer the widest range of RF coaxial connectors in the industry; 55 product series are available, including AEP and MIL QPL connectors.

Microwave Components

Our range covers a wide frequency spectrum from DC to 50 GHz and includes terminations, attenuators, couplers, power dividers, filters and other specialized components.

Multipin Industrial Connectors

Our range of robust circular electrical connectors are suitable for harsh environments, such as railways, machine tools and plant engineering equipment.

RF & Microwave Switches

The patented design of our unique, modular actuator and transmission links guarantees operation up to 10 million cycles with superior repeatability.
